

## Girl Scout Council of Northwest Georgia, Inc. VOLUNTEER DRIVER LOG

For use of personal vehicles during approved Girl Scout activities

## Dear Leader:

Please have a new log filled out each year and keep it with all of your important Girl Scout files. You may be asked to show this to your service unit director when requesting her signature on the Application for Troop/Group Trip or Activity form. Please refer to the most current edition of *Safety-Wise* and the *Council Guide for Volunteers* for additional information related to travel.

## Before signing this log, each driver should:

- Be given the opportunity to read the information found on this log and, if requested, be given a blank copy for their records.
- Completed and be cleared through the Girl Scout volunteer intake process by completing a Volunteer Application and Background Check form.
- Have a current valid driver's license and appropriate insurance coverage (as required by the state of Georgia) for the vehicle being driven.

My signature below indicates that I have volunteered to provide transportation in my private passenger vehicle for members of my daughter's Girl Scout troop for approved Girl Scout activities. I have been given the opportunity to ask, and have answered, any questions I may have related to my agreement to do so. I understand that my personal vehicle insurance is primary coverage and that any council insurance would be secondary. I may rescind this offer at any time.
